MITIE

When it comes to Health & Safety, the regulatory environment has never been more demanding, and this is having a huge impact on how buildings are managed. Electrical testing must now take place on a regular basis and many insurance companies are demanding electrical maintenance programmes are in place before they offer cover.

Our specialist electrical testing and inspection team is NICEIC approved, and has up-to-date knowledge of all the different electrical regulations that apply to your business. Peace of mind is part of the package.

Our Compliance team can offer

- A comprehensive electrical installation and appliance testing service, including:
 - Fixed wire electrical test and inspection
 - Thermograph surveys
 - Emergency lighting testing
 - Central battery systems – test and maintenance
 - Harmonics surveys and reports
 - Portable Appliance Testing (PAT)
 - Full repairs/remedial services
 - Lighting protection
 - Microwave emission testing
 - Emergency lighting
 - Fire alarm test and inspection
 - Lightning conductor testing
 - Main panel maintenance
 - Gas test certification
 - Sprinkler and extinguisher inspection
- A proactive approach to Compliance, ensuring that your risks are identified and your potential problems addressed, either on the spot or through a written quotation
- Consistent quality and pricing through our national coverage
- Minimal disruption to your business and maximum control of your costs
